LOUISA, LAWRENCE COUNTY, KENTUCKY JANUARY 26, 1906.

VOLUME XXI. NUMBER 21.

M. F. CONLEY, Publisher.

THE NEWS OF THE WEEK. A Daily Resume of Important Happenings.

William Van Dusen, who cut Fan-neck Porter's throat with a razor on the afternoon of September 19, 1894, was hanged in the yard of the Jefferson county jail Friday morning at 7:21 A.M.

At 7 o'clock he was pronounced dead by Dr. William A. Keller. Van Dusen's neck was not broken.

Lexington, Ky., Jan. 17.—Doubtless in the diamond fields of Elizabethtown in the discovery of what is believed to be the only chalcopyrite mine in America and possibly in the world specimens of those precious jewels have been sent to the State Geodetic Survey, with a request to make a thorough investigation of the mine during the spring.

The specimens are beautiful green stones, which are said to be rarer than any of the precious stones, especially on account of their rarity, as it is said that only chalcopyrite in existence have been taken from old jewelry.

In compliance with the request of the owners of the land in Elliott county which is believed to contain this mine of chalcopyrite, diamonds and other precious stones, the State Geological Survey will make an investigation, and if diamonds and chalcopyrite are found in Kentucky Elliott County will become another Kimberley.

The discovery of the specimens of atoms thought to be chalcopyrite is the result of the recent investigation made in the Elliott county district by C. Draper, a diamond expert from Transvaal, South Africa, who came to America for the express purpose of studying the Elliott county fields. Mr. Draper was brought to America by the owners of the land who had long contended that diamonds could be found in Elliott county. The property was developed, and it is reported that Mr. Draper said that the conditions were favorable to diamonds in Elliott county as they were at Kimberley, South Africa.

So much encouraged are the owners of the property by the report of Mr. Draper that they put a force on at work mining into the crater of volcanoes, and the result was the discovery of the stone thought to be chalcopyrite and the famous diamonds. Garnets in quantities and even traces of silver were found in the mines as the owners of the land desired to request the State Geological Survey to make an investigation.

J. K. Denison and J. E. Henry, prominent farmers of M. S. & L. & W. were sent to jail for contempt of court as the result of delaying a trial in Judge Young's court.

Owingsville, Ky., Jan. 20.—Mr. H. Richard, aged ninety-one years, died last night as the result of a fall two weeks ago, when he slipped on the ice and broke his thigh. Mr. Richard, a native of Owingsville, left for America for the express purpose of visiting his son, Mr. Daniel Boone Shook, known and other famous Indian fighters and scouts who went to Congress with Will Indians then raised in the hills here and on one occasion attacked the fort was shot and killed as he stood near the further door by an Indian concealed on a nearby hillside.

When Louis Philippe, the exiled Bourbon King of France, was here on a visit to the fort, he was a frequent visitor to the old furnace and was fond of riding in the baskets that were used to haul the metal. The King was fond of hunting, one hunting trip killing a deer in the animals, and when he returned to France to resume his throne, he carried the basket with him.

It was while the King was here that he purchased a pony and a mule, telling them it was safe to ride on them.

In 1815 the cannibals used at the battle of New Orleans did make a raid here. The fort was on the banks of State Creek, and some of the cannibals were led in and transacted a trade with the Indians at the mouth of the creek, and the Indians at the port of embarkation.

He further resolved that the open doors and of course the importance of a resumption of navigation by the navigation of such laws as would facilitate navigation in order to insure the safety of navigation in the river, and he frequently visited the fort.

Letters are pouring daily from parts of the world from Kentuckians who are emigrating to Kentucky during Home Coming week next June. Some of them are being gathered from the various states in the Union in which native-born Kentuckians are now residing. E. H. Hughes is now preparing news stories relative to "Home Coming week," which will be sent to the weekly and semi-weekly papers in the various states which have large numbers of native-born Kentuckians.

Only a limited number of the stories will be sent to papers in states where the native-born Kentuckians are in small evidence. Misses are now residing in E. H. According to the Department of Agriculture at Washington, Kentucky in 1905 produced over one-third of the tobacco raised in the entire country.

There is pending before the legislature a bill providing that all criminals condemned to death shall be executed within the walls of the State penitentiary instead of as now required by law, in the jail of the county jail. This law prevails in some of the States, and it has been found altogether more practicable than that in view with us.

Judge Painter, the new Kentucky Senator, was too young to serve in the Civil War and he is the first senator of that kind to represent the Bluegrass State since Appomattox.

PUBLIC SALE.

Of Fine Kentucky Bluegrass Farm.

To pay no debts, I will sell on Wednesday, February 7th on the premises, my farm of 559 acres, well bounded and best held in the country, in competition in order to be used by guests when the springs are opened for swimming, a cool well with a room overhead for accommodation of guests. An electric heating and lighting plant to be installed, and other improvements made.

On the west side of the Owingsville and Clinton turnpike two and a half miles west of Owingsville I situated a relic of the often time that never fails to attract the attention of passers-by. It is the old mill of wood to turn the water wheel, the first iron furnace ever west of the Allegheny mountains, and which was at the time of its opening, one of the most important points in the New West.

The furnace was erected in 1790 by a Baltimore architect headed by G. Thomas Davis Owings, who came in company with a young man from Baltimore, and who later organized the company.

Shortly after setting his furnace went on a period of great prosperity, and Owings built his famous mansion in this town, from which the town derives its name. The house was the first private residence west of the Allegheny mountains, and which is said to be the only chimney still standing in existence.

This farm is about half in grass, balance in high state of cultivation.

An ideal country home close to schools and churches and in beautiful neighborhood.
